2.3.2: Teachers use ICT enabled tools for effective teaching learning process

ICT resources give both teachers and students leverage. They change the teaching and learning processes from being mostly teacher-dominated to being student-centric, which increases learning gains for students and creates and enables learning opportunities. Additionally, they are economical and reduce paper use. Along with minimizing costs, they also enable quick and engaging content delivery during class lectures by saving time. They enable simple student management and give access to innovative teaching and learning strategies.

■ Digital notice board

■ IPT for B.Sc FY,SY and TY

Example

The main content area contains text and a diagram. The text is mostly illegible but appears to be a list of items or a set of instructions. To the right of the text is a diagram showing a circular structure with internal connections, possibly representing a network or a system architecture.

■ Notes in pdf and doc form

Example,

The image shows a PDF document with a table of contents. The table lists chapters, their titles, page numbers, and authors. To the right of the table is a circular stamp with a grid pattern and text. Below the table is a list of links for downloading the PDF and DOC versions.

PPT and Side prepared for B.Sc. SF Student

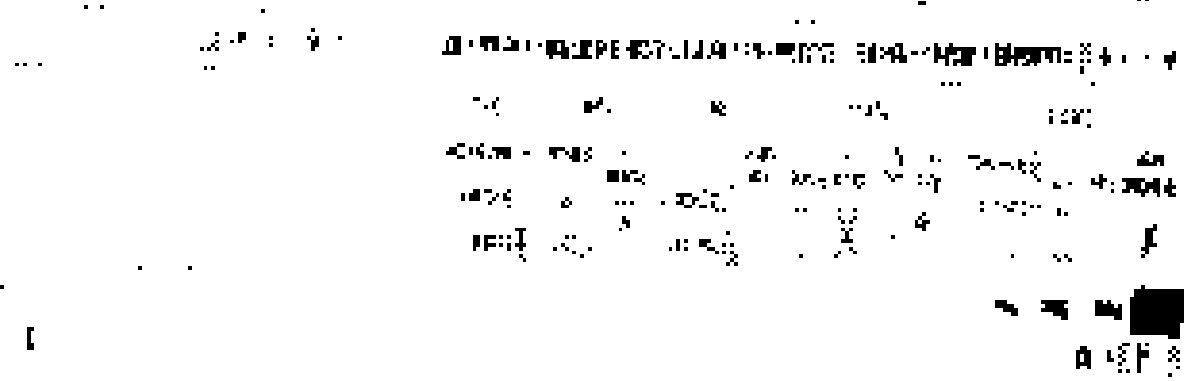

The screenshot shows a presentation software interface. At the top, there is a title bar with the text "PPT and Side prepared for B.Sc. SF Student". Below the title bar is a menu bar with options like "File", "Edit", "View", "Format", "Tools", "Window", and "Help". A toolbar with various icons is located below the menu bar. The main area displays a slide with a table containing three rows of data. To the left of the slide is a sidebar menu with various options. At the bottom, there is a status bar with the text "Slide 1 of 1" and a navigation bar with icons for back, forward, and search.
