**Arts, Science and Commerce College Ambad**  
**2022- 2023**

**Best Practice No:1**

1. Title of the practice:- **Conduct of daily Assembly**

2. Objective of the practice:-

1>to inculcate the human values of love, tolerance, Humanity, national integration, equality and gender sensitisation.

2>to encourage students.

3. **The Context:** Daily Assembly is the best practice that had been implemented in the institute since 1999.It's very necessary because of the changing situation and changing mind-set of new generation. The Human values that were very vital during independence movement are also equally significant in today's context.

4. **The Practice:-** The Daily assembly practice is conducted every day at 11.00 A.M. All the students of junior and senior college as well as all the faculty members, Non-Teaching staff assemble together on the assembly place. During this assembly, the students are notified about the necessary notice, circulars, Programmes, Activities conducted time to time. The faculty and the students, who have good achievement, are felicitated on the days. The national anthem is recited by all.

5. **Evidence of success:-** The result from this practice are very useful for the institute. It Encourage the students to adapt the human values of life at large .It Cultivates the ethical values more students good citizens and encouraging them to contribute in national building process.

6. **Problems Encountered and resource required**

Defining while conducting this practice, discipline of the students and the employees is very important. Hon. Principal of the college has formed the discipline committee, that helps conducting the assembly practice and maintaining the necessary discipline during the practice.

**2022- 2023**

**Best Practice No:2**

1. Title of the practice: - **Health Care Practice**

2. Objective of the practice:-1.To Arrange health check-up camps for students ,Teachers and supportive staff.

2. To maintain the hygiene of the students and staff

3.**The Context**:-In general in the wake up of Covid-19 pandemic, the health issues of the students and the staff has become the matter of great concern.so the institute has decided to undertake this Health care practice practice of best for making healthy India.

4.**The Practice**:-To Implement this practice, the principal has formed various committees to conduct the practice in real context The Institute has organized various camps such as Blood group check-up programme ,haemoglobin check-up programme. Blood donation camp, Covid-19 vaccination programme for the students, the staff members. Even in everyday context. If any student on the staff members has any health problem accidentally, then the committee members instantly provides first aid facility for the patients and the driven to the Hospital for the necessary check-up .Even the staff members help the concerned in the form of money so that he/she could be cured very soon.

5. **Evidence of Success**:- This practice is very significant and useful for the college students and the staff members many a students and employees are helped to come across the health problems and hygienic issues, especially by the girls in the college. It helped to maintain hygiene care of all. Hence it was best practice and successfully maintained by the college.

6. **Problems Encountered and resource required**:-

To conduct this practice, there were some problems, such as availability of medicines, equipment's etc. but the Concerned Committee members helped maintaining the practice The NSS Department and its programme officers, Volunteers too played vital role to successfully implement the practice. The Doctors, Nurses and the allied staff from civil hospital and elsewhere too helped to the practice.
